

SSI Symposium No.5

A Future Society We Can Create That Leaves No One Behind

Program I : Our SDGs Activity - From Japan to the World -
March 18, 2023 16:00-19:00 (JST)

It is important for children, who will implement the future society, to participate in the process of planning and practicing for a future that leaves no one behind, as aimed for in the U.N.'s Sustainable Development Goals (SDGs). With this goal, all members of society will be lively and well-being will be enhanced. In this symposium, seizing the opportunity offered by the G7 Summit, G-Science Academic Conference, and U7+ being held in Japan in 2023, Japanese junior high school and high school students will present their practices and plans for achieving the SDGs and discuss ways to work on current social issues to create a better future society with high school students from overseas.

● **Participating schools:** Minamata High School (Kumamoto), Eishin Gakuen (Hiroshima), Sakai Technology High School Evening Courses (Osaka), Fukui High School (Osaka), Tachikawa Gakuen (Tokyo), Kaichi Mirai Junior and Senior High School (Saitama), Maebashi Higashi High School (Gunma), Nakamura Daini Junior High School (Soma, Fukushima), Kamikosaka junior high school (HigashiOsaka, Osaka) ● **Commentators:** Takeshi Ito (Society Solution Initiative, Osaka University), Miho Taguma (OECD Directorate for Education and Skills), Hirofumi Hamada (Science Council of Japan / University of Tsukuba), Takanori Kusaka (JPO in the section of ESD (Education for Sustainable Development) -UNESCO

Program II : The Future Society We Want to Create – Proposals for Adults

On the afternoon of March 21, we will hold a student workshop related to the statement by G-Science Academies, and the themes of the workshop are as follows: A: Climate change and response to the crisis (environmental issues and education); B: Health and well-being (especially among older adults); and C: Marine biodiversity (environmental issues and education). High school students from Osaka, Hiroshima, Saitama, Tokyo, and overseas will join the workshop, which will be conducted in English. The meeting will not be broadcast, but a summary of various reports and a press release will be published.
